Our Profile

Year of Incorporation : 1999

Our Vision : To innovate, produce, sell & service Modular Office Furniture Systems using the best quality inputs together with optimum use of latest manufacturing & process technologies to deliver Best Quality Products with Customer Satisfaction as our Prime Motto.

Organization & Back ground : HARMONY SYSTEMS is a young company which in its short span has established considerable goodwill among its customers. The company's business strategy is characterized by dynamism, quick response to market requirements & innovative approach are some of the hallmarks of achieving business goals.

HARMONY SYSTEMS is an ownership entity run by a group of professionals having diverse experience.

HARMONY SYSTEMS has its own in-house computational facilities and adequate design capabilities in Auto Cad / 3D max software package to facilitate our customers in visualising their office space.

Manufacturing Facility : HARMONY SYSTEMS has a strong back up of manufacturing facility, which helps in delivering world-class products. Every furniture item is manufactured with accurate machinery to get better finish. This uniformity & quality consistency is achieved by use of modern manufacturing process.

List of machines :
 ■ CNC Turret Punch Press ■ CNC Hydraulic Press Brake ■ CNC Beam Saw EB-120 Active ■ Sliding Table Panel Saw
 ■ Through Feed Edge-Banding ■ Manual Edge Banding ■ CNC Machining Centre ■ Postforming
 ■ Powder Coating Station

Certification : We are an ISO 9001: 2008, ISO 14001: 2007, OHSAS 18001: 2004 & IGBC Certified Company.

Quality Policy : Harmony Systems is committed to total customer delight (both internal & external) by meeting their expectations in terms of Quality & Deliverance on time, every time. It will strive for continual improvement in the processes for achieving ultimate quality product at the most competitive price.

: The PHILOSOPHY behind our organization is - By sharing your views, ideas, and concepts we shall assist you in achieving optimum and aesthetic usage of your SPACE; by delivering world class products suiting your requirements - ON TIME, EVERYTIME. Our success is based on total customer satisfaction through quality of work, after sales service & continuous improvement thereafter

Customer Profile : New Clients : Harmony Systems has served satisfied global customers. Our client history and track records comprise

■ Areva T&D Systems India Ltd. (Multi Location)	■ Anjani Technologies Limited (Noida)	■ NIIT (Delhi-NCR)
■ Orient Fans	■ Espn Star Sports (Gurgaon)	■ Benetton (Gurgaon)
■ DHL (Multi Location)	■ Alcatel (Multi Location)	■ Ranbaxy
■ Laxmi Kumaran & Associates	■ Dainik Bhaskar (Jalandhar)	■ L&T (Multi Location)

Manufacturing Prowess

CNC TURRET PUNCH PRESS

The most popular model for any type of sheet metal work. It can punch, nibble, notch, form and do any kind of jobs on sheets upto 6.35mm thickness through CNC programing. It is one of the best machines in its class.

CNC HYDRAULIC PRESS BRAKE

This beautiful piece of machine can handle just any sheet metal bending at any angle as per job requirement. It is equipped with a CNC anti deflection system which enables precision bending.

CNC BEAM SAW EB-120 ACTIVE

Cutting large quantity of panels is done on this fine piece of machine imported from M/s BIESSE, Italy. The panels are cut in exact dimensions as required through an optimisation software.

SLIDING TABLE PANEL SAW

These machines are used to cut the wooden panels in exact dimensions as provided. The final panels produced have a perfect 90 degree cut.

THROUGH FEED EDGE-BANDING

We have world leading Ergho5 from M/s BIESSE Italy. It allows the application of edge-banding material in rolls and strips from 0.4mm to 15mm thickness. It can be customized to any edge-banding requirement.

MANUAL EDGE BANDING MACHINE

Curvilinear Edgebanding is done on FRAVOL A 16 S. It can produce straight, rounded or curved panels. It permits the application of Veneer, Melamine, PVC and ABS edges up to 3 mm thick and solid wood edges up to 4 mm.

CNC MACHINING CENTRE

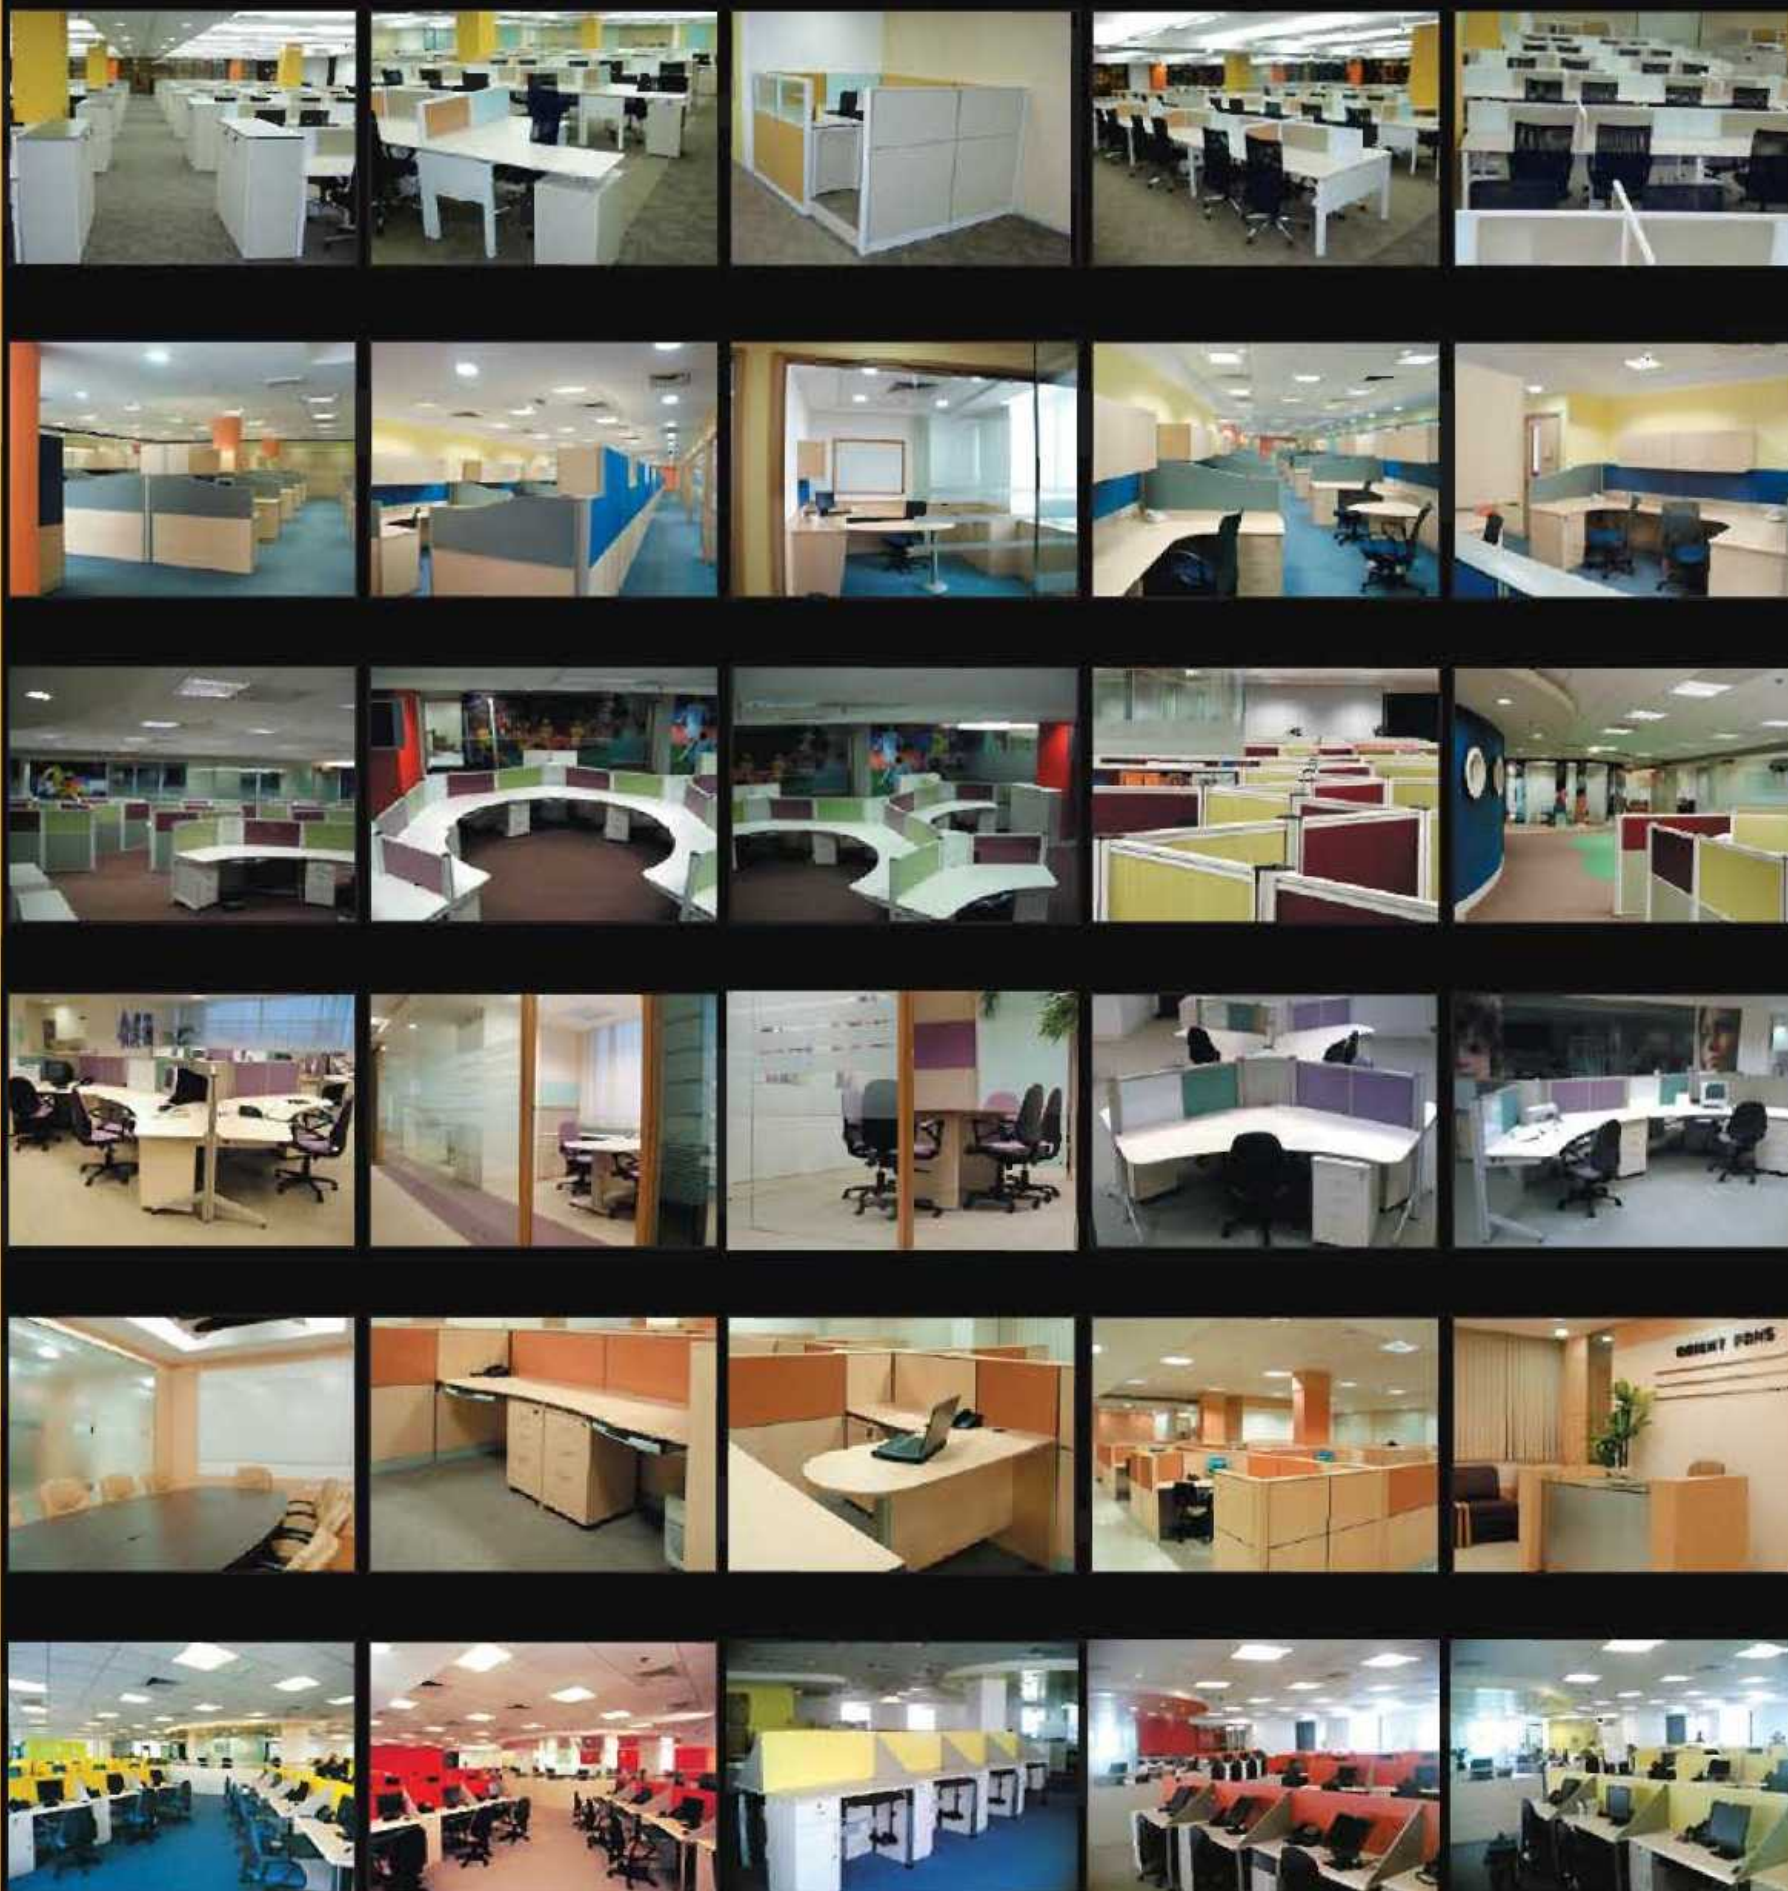

CNC Machining is done on Rover 22 manufactured by M/s BIESSE Italy. This machine can produce any shape as drawn on the drawing and can drill on the system 32 drilling pattern.

POSTFORMING

Postforming is done on this fully PLC controlled machine. It has better work piece holding due to uniform pressure. It is fully automatic PLC controlled machine resulting in perfectly finished pieces of post formed panels

Incorporated

Year 1999 → Our panel Based partition system SYMPHONY was launched.

Year 2000 → Our Tile based Partition system MODULE was launched in the INSIDE –OUTSIDE mega show.

Year 2004 → Our Polebased system LOTUS was launched and appreciated in the design conscious clientele.

Year 2005 → Our 25mm panel based partition SLEEK was successfully launched and ever since it has become a hot selling product.

Year 2008 → Introduced Open S and CLASSIC Desking System

Year 2009 → Full height partition system MAX launched
Control Room Consoles

Year 2010 → Metal Storage Solution

Year 2012 → Increased Range for Max Glazed Partition System

Year 2014 → Demountable Full height partition system

- Harmony Systems is a leading designer and manufacturer of ergonomic office partition systems. Our systematic work approach, ingenious product range, in house inventive development capabilities, quality products, fast services and aftersales support have kept us in the leading position in the office furniture industry.
- Creating Harmony in workplace with simple elegance is the hallmark of Harmony systems. We provide fully integrated systems that enhance your corporate image and work efficiency. Our modular workstation design enables them to be configured to suit any mood or interior.
- Our goal is to create the perfect working environment with a constant endeavour towards innovation and perfection.
- Latest CNC machinery is used for panel and sheet metal working as cutting-edge technology for precision & accuracy to ensure impeccable finish.
- In business since 1998, we have designed and manufactured customer specific products and changed the conventional definition of workspace from boredom to joyful work!!!. Our comprehensive service is a driving force for customer satisfaction and we offer our best capabilities to meet all customer demands. Harmony Systems is an ISO 9001-2000 specified company and quality is strictly controlled under ISO 9001-2000 standards. Latest CNC manufacturing capabilities go a long way in producing international quality products that we proudly produce.
- At Harmony Systems, we have incredible technical and professional resources with complete control on screening and sorting of raw material and innovating on design to create distinctive and apt office environment.
- Our constant endeavour is towards perfection and innovation so as to surpass customer satisfaction. Our customer needs and meeting their timely requirement is the key to our success.

We create **HARMONY** in work place.
